

THE COMMON SENSE AND CONSTITUTIONALLY SOUND POSITIONS OF CONGRESSIONAL CANDIDATE RICK TYLER

GUN RIGHTS - The 2nd Amendment is clear and unambiguous... the people have the God given right to keep and bear arms! Any attempt by government to infringe upon this right is, in and of itself, a criminal act!

ABORTION - Life begins at conception and abortion constitutes the unjust taking of a human life. American is under divine judgment for having allowed this wholesale slaughter via the shedding of innocent blood.

THE UNITED STATES CONSTITUTION - The United States Constitution declares itself to be the supreme law of the land. Public servants take an oath before God and men to obey the Constitution. Violation of this oath casts public servants in the light of oath-breaking criminals who deserve prosecution and punishment.

INCOME TAX - This odious and oppressive tax comes straight from the words of the Communist Manifesto which advocates a heavy, graduated, progressive income tax in its 2nd plank. The income tax is flagrantly unconstitutional and should be resisted along with IRS Gestapo tactics by all who abhor tyranny and cherish the liberties our founding fathers purchased with their lives, fortunes, and sacred honor.

THE FEDERAL RESERVE - The Federal Reserve was established in 1913 via a secretive criminal conspiracy hatched at Jekyll Island, Georgia. The Fed exists and operates in express violation of the U.S. Constitution. The Fed never has been audited and has amassed \$50 trillion in tax free profits since its inception. To the owners and operatives of this criminal syndicate that masquerades as a legitimate steward of the public trust, we borrow the following words from Andy Jackson, "*We're going to rout you vipers out, by God!*"

GOVERNMENT SCHOOLS - The State has failed miserably in the education of our nation's children. Schools have devolved into statist indoctrination centers that have come to undermine the Christian morality upon which our Republic was established. Home schooling and private Christian education need to supplant and challenge the hegemony of corrupt and subversive state education.

HOMOSEXUALITY AND SAME-GENDER "MARRIAGE" - Homosexuality is an abomination in the eyes of God and, when practiced as a lifestyle, facilitates crimes against nature. Homosexuals often are thoughtful, gifted, and exceedingly capable in their respective vocations. Nevertheless, they are guilty of a sin that is hastening judg-

ment and destruction upon the land. The acceptance of same-gender "marriage" is prima facie evidence of a collective form of insanity gripping our nation.

THE WAR ON TERROR - Our open southern border belies the fact that the supposed war on terror is a sham designed to preoccupy the public with make-believe enemies and bogeymen. This phony war has been utilized to gut the Constitution and prepare the United States for disastrous entry into the utopian new world order.

THE PATRIOT ACT I & II - These massive legislative compilations that went unread by the congressmen and senators who voted for them must be scrapped in totality in that they constitute a clear and present danger to what little remains of our Republic.

9/11 - Like the Kennedy assassination and other sea-change events, 9/11 has spawned an avalanche of disinformation and bitter fruit in the form of an assault upon the Bill of Rights, justification of an interventionist foreign policy, the waging of undeclared wars of aggression and accompanying regime change policies. The "official" explanation of what transpired on 9/11 is fraught with inconsistencies and contradictions. A new, thorough, and genuinely independent investigation into this hideous crime is long overdue.

THE COUNCIL ON FOREIGN RELATIONS - The CFR is a treasonous and subversive organization that needs to be thoroughly investigated and brought before the bar of justice for its high crime of exercising unlawful and subversive control over the American nation.

DEPARTMENT OF HOMELAND SECURITY - Like the Patriot Act, the Department of Homeland Security's unprecedented consolidation of powers increases and magnifies the power of the police state over citizens who still think they are free. It must be abolished.

TERRITORIAL SECESSION - The states have the absolute and inviolate right to secede from the national union and any act designed to prevent or punish the exercise of this right is criminal in nature.

IMMIGRATION - A permanent European American majority must be galvanized to insure the nation's well-being and survival. In the interest of this objective we must return to pre-1960's immigration laws and policies, deport the vast millions of illegal aliens currently residing within our nation, secure our southern border, terminate policies that subsidize minority birth rates, and encourage the escalation of European and Caucasian immigration from such countries as former Rhodesia and South Africa in the largest possible numbers.
